Our VISION

To make global food production more reliable, sustainable and profitable

Our MISSION

To offer a generic fully automated farming system for arable farming on the global market

**DANMARK
SOM TESTLAND
I DEN GRØNNE
OMSTILLING**

Ole Green

Title

CEO of AGROINTELLI

Honorary Professor at Aarhus University

Education

Trained farmer, Agro engineer,
Agronomist, PhD Biosystem Eng.

Expertise

Automation and precision farming
Technology and intelligent solutions
for sustainable soil management

The PAIN

- Uniform repetitive working conditions
- Increasing weed resistance problems
- Increasing demand for food and feed
- Higher requirement for food safety
- Continual cost optimization

AGROINTELLI

AGROINTELLI

Yield reduction

- Reduced water infiltration capacity
- Increased risk of erosion
- Less bio diversity
- Limited root growth with lower soil volume access per plant

The SOLUTION

- Precision farming and site specific management
- Big data and artificial Intelligence
- Automation and robotics

ROBOTTI

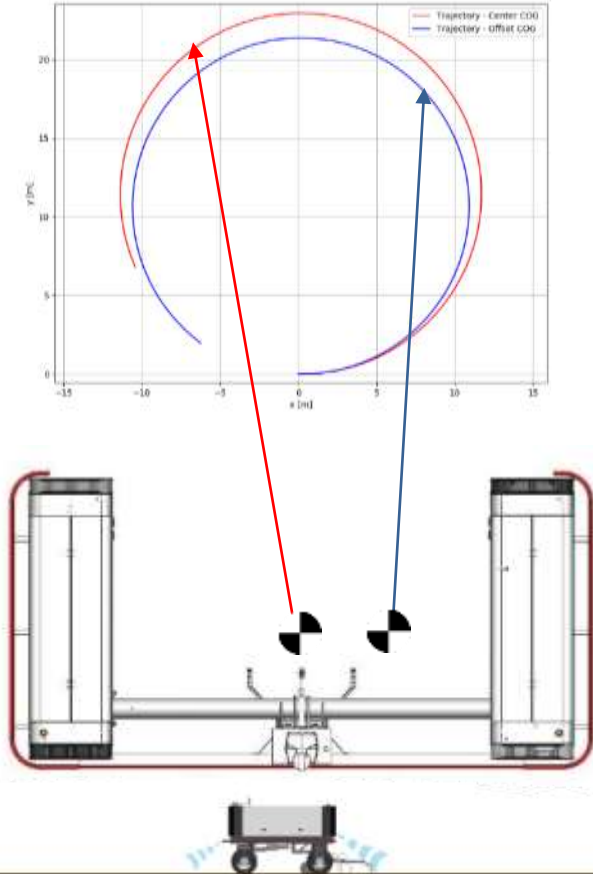

The technology

- Use of Big Data and Model based development for products and solutions
- Use of Cyber-physical system validation

Ex. Turning Capabilities as a function of weight distribution

Modelling and simulations

- Modelling of Multiple interacting systems
- Model-based visualization
- Development independently of external factors.
- Accounting for modularity in the design

Our CUSTOMER

Age	30-45 year
Gender	Male & female
Origin	Global
Education	Agronomic and business
Need	Profitable business
Pain	Lack of reliable workforce
Objective	Data driven food production
Utilization	Arable, horticulture, viniculture & berry production

Tractive force and power measurement on Robotti tractor

CUSTOMER

30-45 year

Male & female

Global

in Agronomic and business

Profitable business

Lack of reliable workforce

Active Data driven food production

Automation Arable, horticulture, viniculture & berry production

We NEED

- 3rd party evaluation and documentation, essential for global market penetration
- We cannot be the first customer with a new need for testing, pay for the initial investment
- Large scale demonstration

Thank you
